PROFESSIONAL EXPERIENCE

1. Elearning Website

Role: Fullstack (2025 – 2025)

Technologies: Nexts.js, Express, postgres

GitHub: https://github.com/Duc-Tri-Le/elearning/tree/main/FE_User

Description: Developed a full-stack e-learning platform that allows users to study, take exams, manage flashcards.

Key Features:

- Built RESTful APIs with Express for authentication, exams, and user management
- Implemented real-time data fetching and state management using Redux Toolkit.
- Added features for creating and reviewing flashcards, and viewing learning roadmaps.
- Integrated authentication, role-based access, and secure token handling.

2. E-commerce Website

Role: Fullstack (2025 – 2025)

Technologies: React.js, Node.js, Express.js, MongoDB (Mongoose), Stripe, MoMo, Socket.io

GitHub: <https://github.com/Duc-Tri-Le/webtmdt.git>

Description:

- Developed a full-featured e-commerce web application with shopping, online payments, refunds, real-time chat, and revenue statistics.
- Worked on both frontend (React.js) and backend (Node.js, Express, MongoDB).

Key Features:

- Payment and refund integration via Stripe and MoMo.
- Real-time chat using Socket.io.
- Revenue statistics over time.
- User, product, and order management.
